Making Bihar Hub for Secured Cyber Infrastructure

CIMP -BIIF and Redinent Innovations signed MoU to develop competencies, capabilities, and consultative solution for the industries and organizations based out of Bihar and Eastern India.

With the new Data Protection Data Privacy Act (DPDP 2023 Act), getting a nod from Indian Parliament, it is extremely important for industries, especially MSMEs in this part of India, to have a knowledge and solutions hub on cyber security in Bihar, that can help them to inculcate tool techniques processes (TTP) to safeguard the Confidentiality, Integrity and Accessibility of their digital assets, which is termed as CIA principle in the colloquial language of Cyber security world.

 Redinent Innovations is a renowned Indian Cyber Security Start up that works closely with CERT-IN, apex cyber security body under MEITY, BEL, TCIL, USI, and many organizations across the world, has been associated with CIMP-BIIF for a long time, on the topics of entrepreneurship development, providing mentorship to B-Hub startups.

Redinent Innovations has been credited for finding multiple "Zero Day" vulnerabilities in products of global companies such as Bosch, Dhaua, Hikvision and recently vulnerabilities due to misconfigurations in Teslamate software renowned Tesla car.

Redinent and CIMP-BIIF will team up to set with a Model Security Excellence Centre (SEC), covering IT, IoT, OT cloud computing, Mobile devices, which will help organizations and institutions in Bihar and adjoining areas, to against cybercrimes, cyber-attacks incidence and cyber warfare.

CIMP-BIIF, CEO, Sh. Kumod Kumar, Director CIMP Dr. Rana Singh, and Sh. Divyanshu Verma, CEO, Redinent innovations, have jointly committed that this SEC will help to shape up the research and entrepreneurship ecosystem around Cyber security in Bihar. Cyber security /Data Security is a very upcoming domain and many new initiatives among CIMP-BIIF and Redinent Innovations is planned in future, to create a world class talent pool of Cyber defenders in Bihar, in line with Israel's Model of Cyber Security capabilities and competency development with an aspiration to make Bihar a Cyber Security Start up Hub in this part of world.
