INTRODUCTION

The Financial Statement Modeling Certificate Programme (CP) at CIMP is designed to equip participants with practical skills in financial analysis and modeling. The course focuses on constructing dynamic financial models, enabling participants to analyze balance sheets, income statements, and cash flow statements effectively. With a hands-on approach, it covers key concepts such as abridgment of financial statements, analysing financial health, forecasting, and sensitivity analysis. Participants also learn to integrate advanced Excel techniques for robust model building.

FOR WHOM

The CP is ideal for finance professionals, students, and aspiring analysts, the course bridges theoretical knowledge and practical application, fostering competency in decision-making and strategic financial planning.
